**ALPA
Air Transport in Canada
Symposium**

**Improving Airline Safety
and Service**

Captain Steve Linthwaite

Jazz

- SMS
- Lasers
- Drones
- Airport Infrastructure
- Stabilized Approaches

➤ SMS...It works!

- All parties have bought in
- Culture of...
 - Quality assurance
 - Risk management
 - Non-punitive reporting
 - Auditing

...is healthy and continues to evolve

➤ Lasers

- Now has adequate attention
- Needs practical and enforceable legislation
- Canada should look to the actions taken by other countries

➤ Drones

- Has adequate attention
- Moving toward practical and enforceable legislation

➤ Airport Infrastructure

- Capital funding that improves efficiencies and reduces risk
- Approach, runway, and taxiway lighting appropriate to approach minimums and LVOP/RVOP restrictions

➤ Stabilized Approaches

- All stakeholders must work together to:
 - Encourage the use of stabilized approach procedures
 - Maintain high aircraft arrival rates
 - Ensure appropriate procedures for all categories of aircraft
 - Ensure it isn't cost-prohibitive
