PAIN COMES IN DIFFERENT FORMS. SO DO TREATMENT OPTIONS.

Chronic pain is long-lasting pain that has many causes, such as malfunctioning nerve signals, injuries and chronic conditions. While chronic pain can severely impact quality of life, many people suffering continue to face long waits when accessing care. Options for treatment include medical procedures, medications and lifestyle changes.

Reduce your risk for chronic pain:

- Cope with stress
- Manage opioid dependencies
- Treat other chronic conditions accordingly
- Keep a healthy weight
- Let injuries heal before resuming physical activity

1 in 5 Canadians suffer from chronic pain.
